

**Expand your brand's impact with in-app donation matching tools.**

**Actionable approvals with easy reporting.**

As a leader, you need actionable data. Selflessly's platform provides it in-platform, unlike some of our competitors. The platform includes easy to read reports that can also be downloaded in CSV or PDF formats. Our reporting tools help you measure the impact that your employees' time, talent, and treasure have had on your community.

## Key Features

### Export to CSV or PDF

Selflessly allows you to conveniently access your reports from the dashboard in both CSV and PDF formats. No need to login to a different system to do so!

### Track Impact

With easy to read tables, you can quickly see the matches that are pending approval. In-table actions make it easy to administer, too.

### Easy Administration

Through our reporting functions, you're able to quickly approve new match requests, look through volunteer time off, and verify it against your numbers efficiently.

### Report Sponsorships & Grants

Spreadsheets are a bygone era. With Selflessly, you're able to manage the sponsorships and grants you administer with ease through our unique reporting tools.
